A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Philosophic and Acoustic, Counterfeits, Erasures, Washers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in Eng and by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman, of the New York Clearing House, and Meade Brothers, extensive and skillful photographic, 232 Broadway, N. Y. The latter say no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—$5 cts. per lb.

Bank Bills—$25 for 1000 sheets.

Bills of Exchange—$25 for 1000 sheets.

Insurance Policies—40 cts. per lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or washing, but makes it extremely difficult to alter, change or mutilate in any manner. The chemicals are so combined as to be perfectly harmless to the pulp, being in no way injurious to the paper. In the Southern States, Cuba, the West Indies, and the Central America, it is perfectly adapted to the climate, and will keep over 20 years, written on the ordinary paper, while the oil and other chemicals imported in other papers, will make the ink to blot and run, and other paper not in use.

The Company have now in operation Mills in Maple County, N. Y., of about 500 horse power, and are able to fill all orders for Paper at the shortest notice.

Orders for Stock must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall-street, New York.

Walker's Second Expedition to Nicaragua.

Gen. Walker has again left the United States, with an expedition to make war upon a friendly power. That expedition has been gathered in this country, and supplied with munitions of war, in direct defiance of our neutrality laws. It has been gathered, too, openly and notoriously, beneath the very eyes of our own government, and has been most shamefully permitted to depart unmolested.—We say *permitted* to depart; for the facts as reported by telegraph show that the Administration has made the merest pretence of stopping Walker. He has "slipped" away, from the U. S. steamer Fulton, and gone on another piratical expedition for the benefit of slavery, while the administration very quietly kept its eyes closed until he was fairly off, or at least took very moderate measures to stop him. Now it wakes up, and with fierce energy sends off its orders to intercept him. Its steamer will probably go two miles where any government vessel will go one—so that the administration knows there is no particular danger of his being intercepted. The northern democratic organs profound groan indignation at this new outbreak of filibusterism, and laud the administration for its "energy" in trying to stop the expedition after it has gone—while the Southern fire-eaters laugh in their sleeves—and laugh openly—at the sham.

We append some just remarks of the New York Times, a paper which the democratic organs have recently been fond of quoting:

"The departure of the Fashion, laden with arms and ammunition of war, is a curious comment on Gen. Walker's letter to Secretary Cass, dated the 20th of September last, and published in the Times of the 9th inst. In that document the General, "with scorn and indignation," denied the charge that he intended to violate any laws of the United States.—We do not exactly see how he can reconcile this statement with his present action. But be that as it may, our Government appears to have had an abiding and confiding faith in the simplicity and honesty of Walker's purpose. He is arrested in New Orleans as soon as his plans are matured, and then admitted to bail in the sum of $2,000—a sum which he would not hesitate to think whenever it interfered with the execution of his designs. He is allowed to go on board the Mobile boat, with three hundred of his followers, when it is a matter of public notoriety that a steamer is in the offing, waiting to convey him to Nicaragua! His steamer, the Fashion, is permitted to carry off arms and ammunition for an army, and yet the United States Marshal, who searched her before she cleared, could see no occasion for the interference of his services. And, to crown all, the United States steamer Fulton remains quietly out of sight, in order that the filibusters may have a fair start.

"After this, we do not see how the Government authorities can pretend that they have done all in their power, or even in any way attempted, to prevent the second invasion of Nicaragua by General Walker. They would see a much more manly part by confessing at once that they are his accomplices, both before and after the fact."

The Tribune has the following among other remarks:

This sort of child's play in the way of legal interference will hardly satisfy anybody that the Government was in earnest in proclaiming its intention to enforce the neutrality laws and to prevent the sailing of the expedition. And what adds to the suspiciousness of the case is the additional statement that not only the Law and Custom House officers were humbugged, but that the United States steamer Fulton, lying in the Mississippi, was "outwitted."

A treaty has been signed with Nicaragua, by which the Transit route is to be protected by U. S. troops, in case Nicaragua is unable to do it in consequence of invasion or insurrection; our troops to be withdrawn at the return of peace. A free port is also to be guaranteed at each end of the line. Nicaragua is to determine which Transit Company has the valid grant, and she has signified that the American Atlantic and Pacific Ship Canal Company created by Nicaragua in Sept. 1849, is the company.

James Sago was shooting at a mark on the door of an outhouse at Millphill, Michigan, and his mother having entered it unknown to him while he had gone into the dwelling house to load his rifle, he shot her through the heart.

W. E. Jones & Co. formerly of Ozone, should have paid for their paper before they left for Oshkosh, Wisconsin. We hope they won't swindle any printers out there.

John Weeks of St. Anthony Falls, Minn, left town without paying for his paper.

THE PERFECTION OF HIGHWAY ROBBERY.—Mr. R. Paulson, the Surrogate of Bergen Co., N. J., was the victim of a bold outrage last week. While returning in his carriage from Hoboken, he was stopped by some strangers, who told them his wheel was coming off. They assisted him to replace it, and as he was about getting into his wagon again, they threw a bag over his head, and robbed him of his gold watch and $3, and then left him with the bag over his head, and tied about the waist so as to inclose his arms.

A THOUGHTFUL WIFE.—Such a one has Mr. Peets, proprietor of the Phœnix Hotel, Lansingburg, N. Y., which was destroyed by fire the other day. He has learned to his surprise, that his wife had effected an insurance of fifteen hundred dollars on his property, with her own money, unknown to him.

THE NEW SCHEME OF VILLANY. The following letter to the Chicago Tribune develops the new scheme contrived by the pro-slavery men to fasten slavery upon Kansas, in spite of the opposition of nine tenths of the people:

"The report on the subject adopted by the convention fixes the 21st of December for submitting the slave clause of the Constitution to the people, and prescribes that the votes shall be only in this form: Constitution with the slave article.—Constitution without the slave article. Every vote cast, therefore, will be in favor of the Constitution, and there is no possibility of a vote against it.

"If the Free State men refuse to vote, under these circumstances, the Constitution will nevertheless be unanimously adopted by pro-slavery votes, and sent to Congress with the pretended sanction of the people. And if the free State men vote and cause the section legalizing slavery to be stricken out, then the Constitution will only be silent on the subject, and slavery *already existing by force of the federal constitution, has defiant by the Supreme Court and President Buchanan, Kansas become a slave State.* So that the pro-slavery men boast that they have the game in their own hands, and will inevitably make Kansas a slave State.

"To make the whole thing sure beyond recall, the Constitution is made and unalterable for twenty years, and to secure the starting of the State organization on the pro-slavery tack, the Constitution provides a regency for temporary purposes and makes the President, Calhoun, the regent of Kansas. He has the power to order an election for State officers and Legislature, and by proclamation convene the general assembly of the State. He appoints all judges of election in all elections till their regulation by the Legislature, receives all returns, counts the vote, decides who is elected, and issues certificates."

The object is to have a vote in Kansas upon this Constitution before Congress can have an opportunity to refer it to the people in a different shape. The pro-slavery men will vote, and adopt it with the slavery clause or the free State men if they vote at all, must accept it without the clause. Either way slavery will be permitted, according to the new construction. There is no way for Congress to get rid of this Constitution, except by repudiating the bogus convention and its works entirely. Will they dare, after the administration has all along recognized the legality of that body?

THE MURDER AT BEAVER LAKE, N. J.—The St. John, (N. B.) News gives the following account of the Breen and Slevin murder at Beaver Lake, derived from the confession of one of the murderers.

"On Saturday afternoon the wretches repaired to the vicinity of McKenzie's residence, at an early hour, and secreted themselves upon a hill where they could watch the movements of McKenzie, and see that no strangers were present. As soon as the parades of evening had passed upon them and the neighborhood was wrapped in darkness, they crept to McKenzie's house with a high old candle and cross the road to the other building, (which Breen was to occupy,) when they quickly left their skulking place and followed him. On approaching Breen said that he had come to take possession, and that his family would soon be along. Mr. McK. invited them in. When inside, one of them suddenly extinguished the candle while the other struck McKenzie a severe blow on the side with an axe, which felled him to the ground, a lifeless corpse, but to be sure of their victim they beat his head with their axes and left him weltering in his blood.

"They then proceeded to the dwelling house; each armed with an axe. Mrs. McKenzie was sitting by the fire with a child (about eight months old) in her arms, and the other three children were playing about the hearth. We may here remark that the ages of the children ranged from eight months to six years. Mrs. McKenzie spoke to the men as soon as they entered, when the axe of one of the wretches was suddenly upon her, and now began the work of butchery. They went at it like demons, and butchered and flashed among the innocent little children, amid awful screams, until every one of them was annihilated, and their mangled bodies were left in pools of clotted blood, scattered about the floor.

"They then set to work and rifled the house of all its chief valuables, got the key and opened the iron safe, and took out the money, (the whole amount, we understand, did not exceed £100,) and, afterwards, set fire to the building and also to the opposite building, where the body of Mr. McKenzie was, and they were both consumed."

MONETARY AFFAIRS. *Monday Nov. 16.*—The week closed upon a strong and rising stock market. At the Board Saturday, Boston and Maine sold at 80, and closed in demand at the same price bid. Western was firm at 73 bid, and Worcester advanced to 79. Providence also advanced to 68.—*Boston Jour.*

A PREACHING WARRIOR.—Gen. Havelock, whose hazardous post, and deeds of a career in India have made his name famous, not only a soldier but a preacher. He is a member of a Baptist Church in Calcutta, and is said by the missionary Kincaid, who knows him well, to be a devoted Christian. He has been accustomed to carry with him a preaching tent, in which to exercise his persons gifts as a preacher of the gospel. His influence has been great and good.

HEARING BY SPEECH.—The Easton, Pa. Argus mentions an incident of an old gentleman recently deceased in Lehigh county, who has been suspected of having considerable money in his house, although no one knew the amount. On examining the premises after his death no less than eleven thousand dollars were found in specie, which he had doubtless been saving as a concealing for many years.

TOTAL ABSTINENCE WITH A VENGEANCE.—On Saturday of last week the temperance folks of Mechanicsville, Clarke County, Va., had an interesting time. A procession was formed, in which, in addition to the members of the body, were a goodly number of ladies, bearing a banner inscribed with "Teetotalers no husbands."

A correspondent of Shelburne Falls, writes to the Greenfield Gazette:—"No news—times are awful hard, factories stopped—Bank don't discount—nobody pays anything—peanut stands bankrupt—children get the mumps—bees stopped laying—cows have dried up—and all nature is in a state of universal suspension."

A fairy is going off a man who stepped into a bank, and presenting a ten dollar bill, received an eagle. "I don't want this, I want specie," said the countryman.

"Why, you've got it now; there it is in your hand," was the reply. "This is nothing but gold; I want the specie," he answered.—The teller "caved," and passed him a handful of dimes.

"Your hand annoys me exceedingly," said the Prince of La Roche to a talkative person, who was constantly quilting the action to the word, so he set next him at dinner. "Indeed, my lord," replied the babbler, "we are so crowded at the table, that I do not know where to put my hand." "Place it upon your mouth," said the Prince."

Removal.

E. F. PLAISTED, M. D.,

Physician and Surgeon,

Has resumed his Residence and Office in Hammond Street, nearly opposite the Hammond Street Church, where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, those of the Lungs, Throat and Heart. Two years almost exclusive attention given to these diseases, under the most eminent German physicians in Philadelphia, and his thorough knowledge of the science of Auscultation and Percussion, enables him to detect the slightest deviation in these organs from their healthy condition.

His experience and success in the treatment of Lung diseases especially, give great confidence in his ability to give satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

The success which has attended the practice of Dr. Ayer during the later years of his experience, has been so marked as to call forth the highest encomiums from the medical profession generally, and many are now successfully using the remedies and instruments which his research has discovered, and of which he makes no secret; and, as the "*Medical Journal*" says, "though Dr. Ayer's remedies and system of practice may in time be improved upon, still, we can scarcely see how it is possible, and believe that he will long retain in the enviable position he has obtained of being the most successful physician of the age in all pulmonary diseases."

Dr. Ayer will remain in town for a few days, for the purpose of treating pulmonary diseases and diseases arising from them, thus furnishing to all an opportunity which may never again occur, of consulting the most experienced physician in those complaints in the country without leaving home.

Patients who scarcely yet have noticed the flushed cheek that speaks of death, Awake! Danger's nearer than thou fainkest. Mother! that with bleeding heart gazes on the form of an only son, despair not; and may be near, but you must seek it early to be fortunate. Reader, (whoever you be,) are you sure that you, your companion or children are safe, and that you may not yet awaken in sad consciousness, when it is too late? Would it not be well to have an examination, and thus know the worst and provide for it?

DR. AYER—*Dear Sir:* For the last nine years I have been a great sufferer from Asthma, and an affection of the bronchial tubes and larynx, and until placing myself under your care, I had not been able to obtain the least relief from the prescriptions and treatment of the most skilful physicians, but from your treatment I at once experienced relief, and from the use of your laryngeal syringe and inhaling preparations I at once experienced rest, and have resumed the use of my voice wholly, and feel that I am indebted to you for the prolongation of my life and ability to prosecute my profession. CHAS. TASTE,
Professor of Music and Language.

HAVERSTRAW, 12th May, 1857.

DR. AYER—*Dear Sir:* I write to inform you that my wife's health is nearly restored; her cough has left her, and her night sweats have stopped. She has ceased raising, and is gaining health and strength, and I think she will weigh thirty pounds or more heavier than when she came under your care. Yours gratefully,
JOHN SNOW,
Master of ship Sea Bird.

BOSTON, Mass., Sept. 28, 1857.

DR. AYER—*Sir:* It is with pleasure and gratitude that I inclose the amount to send my thanks to you for the change your skill has wrought in my case. Three short months ago my friends, even for me, as "one already gone," but now I consider I have as good a chance of living as any of them, and instead of lying awake in bed, coughing all night, I cough that caused me intense suffering, I sit up and atom my business. In closing, I can allow, no again thank you; for though in your large practice my case may be nothing new to you, it was most important to me. Your humble servant,
G. M. SMITH, Counsellor and Attorney at Law.

CARTHAGE, Ills., Oct. 1857.

DR. AYER—*Dear Sir:* I have to inform you, with pleasure, that I have derived great benefit from your treatment and excellent remedies. Expectoration and cough are unheard with the dead. My bones, so long adapted to their legitimate covering, are now clothed with a goodly share of flesh; my breathing is much improved; in short, I am a well man. Though not completely covered yet, I am rapidly improving, and hope still to be spared, to render your treatment I have bitherto used of cough, night sweats, fever, ulcerated throat, and I am really a well man, though still at work for you. Yours with respect,
O. W. PAYNE, Pastor of Episcopal Church.

NEW YORK, July 20th, 1857.

DR. AYER—*Dear Sir:*—At the earnest request of my friend, Dr. Isaac of South Carolina, in order to test the effects of your improved instruments, I selected four cases from my wards, and used as follows, and send you the result of the one considered worst: Adal Beals—severe case of Nasal Catarrh, complicated with bilious disease of the liver, jaundice. Stench from nose exceedingly offensive; and system bilious, yellow, dejected and low in strength and flesh, with loss of appetite, bad cough, and symptoms of hectic. The nostrils was cauterized at once, and both sides of the septum bathed with your shower syringe, during the bath holding the veil of the palate. The physician was then instructed how to use and was effected, and the patient relieved of all offensive matter. In twelve days all inflammation of the membranous coating of the nose had disappeared, and she has amended rapidly.—Her skin has gradually assumed its natural color; the appetite, flesh, spirits and strength came back, and at the expiration of the week the patient was discharged as well.

J. D. CARNOCHAN,
Surgeon of the New York Emigrants Hospital, Prof. of Surgery in New York Medical College.

Notice.

DR. AYER does not wish to be mistaken for J. C. Ayer of Lowell, who he believes does not even claim to be a Physician, while the Doctor is a graduate of Harvard Medical University, the author of several elementary works on Physiology and the Laws of Health, in one of which he exposes the invasion of a number of Surgical instruments which are in use, but by Physicians, and whose specific practice in Lung Complaints is far more fatal than any other secular Physician in the country.

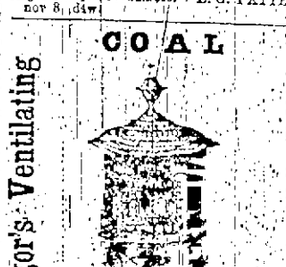
COAL



MacGregor's Ventilating and Gas Burning

STOVES.

THE reputation which this Stove has attained in the United States during the past six years, is a sufficient guarantee of its character as a complete Philosophical Mechanism, superior to either Hot Water or Steam, because of its simplicity, its easy management and control, and more especially its economy and the mild and healthy atmosphere it generates and diffuses. The heat is thrown into the large cylinder drum of the air chamber and thus does not become so heated as to burn or destroy the oxygen of the atmosphere. It may easily be regulated so as to give any degree of heat required, and unlike other Anthracite Coal burners, ventilates the apartments quite as thoroughly as a wood fire or open Franklin.

The fire may be continued from one to three days without replenishing, and for months without clearing out or requiring the use of charcoal, or wood to rekindle.

35 pounds of coal has been found sufficient to warm a common sized apartment twenty-four hours in the coldest weather.

Manufactured and for sale by the subscribers.

TELEGRAPHIC

FROM THE DAILY WHIG AND COURIER

From Utah.

WASHINGTON, Nov. 17.

Advices have been received from Col. Alexander, substantially confirming the reports in the newspapers respecting the destruction of the Contractors trains by the Mormons. Brigham Youngs issued a proclamation to the United States troops, defying the government and concealing his people to hostilities in the most determined form, and ordering the troops to keep out of Utah. He says that if they desire to remain until Spring, they may do so, provided they give up arms and ammunition. Col. Alexander in reply, stated to Young that the troops were there by order of the President, and would be disposed of as the Commanding General saw proper.

Movements of Gen. Walker.

BALTIMORE, Nov. 17.

A private letter from a gentleman at the east, who is believed to be well posted in regard to Gen. Walker's intentions, intimates that in case he is headed off from landing at Nicaragua, he will next go heard of from Africa. The information is not considered very reliable, but there may be some ground for the assertion.

FOUR DAYS

Later From California.

NEW YORK, Nov. 16.

Steamship St. Louis arrived at her dock this morning, but too late to forward her mails east by the morning train.

Two severe shocks of earthquake were felt at San Francisco on the evening of the 19th. The St. Louis connected with the steamer Sonora, which brought down $1,700,000 in specie.

The Indians had made an attack upon the settlements in Honey Lake Valley, driving out the inhabitants, and carrying off all their stock and provisions.

P. H. Burnett has been appointed Supreme Judge of California, in place of Judge Murray, deceased.

Business at San Francisco was unusually dull for all kinds of produce. The money market was easy, and demand light. The receipts of gold dust were satisfactory.

The Los Angeles Star gives the particulars of the massacre on the Plains of a large number of emigrants, before reported. The train consisted of 135 men, women and children, of whom upwards of 100 were murdered.

The Indians are believed to have been incited to the deed by the Mormons. Destroying Angels, in revenge for the death of Parley Pratt.

On Saturday, 17th, the Executive Committee issued an address to the General Committee of Vigilance stating that a resolution had been adopted removing all penalties attached to the sentence of banishment.

The Alta California, Oct. 23, publishes the following item of news, received by the American ship Alexander, from Manilla. If true, the news is very important:

A private letter was received from Manilla, giving an account of the horrible massacre by the Chinese of all the American and English residents of Ningpo, one of the five open ports lying between Amoy and Shanghai. Our informant could furnish us with no further details, but informs us that the news is beyond a question reliable. The number of Americans and English at that port was estimated at 50, all of whom, the captain believes to have been murdered.

Brig Harriet Newell, (of Belfast, Me.) Drinkwater, from Pensacola for Cardenas, went ashore off Stone Key, near Cardenas, on the night of the 24th ult., and with her cargo of 8 pine lumber, became a total loss. Capt. Drinkwater saved and had arrived at Cardenas on the 2d inst.

P. K.

Extract of a letter received from Rev. B. C. Thomas, Tavoy.

Messrs. P. Davis & Son.—Dear Sirs—The Karens here have become acquainted with your medicine, and their demand for it is to me very surprising. I have now by me orders for more than fifty bottles; I therefore wish you to send me a quantity, and I will pay you through the Treasurer of the Missionary Union. There is no medicine which stands so high in the estimation of the Karens of these provinces as your Pain Killer, and I feel willing to gratify them, as I entertain a very high opinion of its worth.

Messrs. Parker Davis & Son,—I find it necessary to address you again, as my most sanguine expectations have been more than realized. The call for your valuable medicine is increasing so very rapidly that I fear I shall soon be unable to keep pace with it. My object in writing now is to beg the, on receipt of this you will kindly despatch another batch as ordered in my letter of June last. I hope I will not be entirely out before your last shipment reaches us, of which, however, I have not yet heard from you. Yours sincerely,

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, refusing all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour, of four different qualities, in unbolted wheat meal, and in shorts. A car load, 1000 bbls, will arrive weekly, so that customers can be supplied at all times, with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by sacking 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pale new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the Hair. This Balm gives the scalp a new and healthy action, restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair, and keep it from falling off, composed of Oils, Alcohol, and other injurious materials, and all to a great extent have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye, knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after several trials had perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the hair has turned gray, it will bring it back to its original color, be it black, brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off, as will be seen upon using this Balm for only a few days. It will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair, and by that the whole hair may be a natural color. Each hair has a root in the skin, and is of the form of a hollow, gray tube, through which there is a constant circulation of the pigment from the root, which when this pigment or colouring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making new the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837,)

76 State Street, opposite Kilby-st.,

BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity, or utility of Patents or Inventions—and legal opinions rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, for ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST EVIDENCE OF ADVANTAGES AND ABILITY, he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of English and mechanical works, and full accounts of Patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

During the time I was in the office as Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, at those times for persons in my office. There were few, if any, persons who did so much business before the Patent Office, and there were none who conducted it with more ability and success. I found Mr. Eddy as one of the most honorable and respectable of the Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and who is capable of putting the application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

(From the present Commissioner.)

Januar 17, 1855.—During the time I have been in office, Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. I feel thoroughly acquainted with the law, and the rules of practice of the Office. I regard his success of the highest order, and merit. Practitioners with whom I have had official intercourse.

LINCOLN'S WATER PROOF BLACKING AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IS not a truth that when the feet are cold, wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is softened and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but this, at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the publick as the best article in the market.

Dr. Wesley Grindle's CELEBRATED MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption!

Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS wonderful Remedy is done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints,* from Maine to the most remote dwelling of Oregon, or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to the knowledge that it *does* cure Consumption, and they now use it in their practice as a tried and sure remedy.

There is no remedy equal to it in building up a system, that under the influence of various causes, hereditary or exposure, has run down, or lost its natural tone and vigor. Its great secret is its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercles in the lungs, and it is as *safe* as it is *certain* in its action.

Some poor suffering soul of anxiety and doubt in regard to what we say, may ask. Can your medicine cure a portion of lung that, disease, has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If, the treatment, be commenced in season, but little or no portion of the lung is lost. It is necessary only, to *arrest* the disease, and when this is done, the concrete substance deposited in the tissue of the lung, technically known as tubercle, becomes absorbed, leaving behind, in its place, a porous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested, at this early stage. The softened tubercle produces irritation, the irritation brings in inflammation of that part of the lung in which inflammation leads to ulceration, and the destruction of a portion of the tissue in this part leaves a cavity. If a cavity is formed which enlarges and does its work of death, matter is the deposit of tubercle is formed. Now, does your remedy effect a cure? *Most humbly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated, and nature either furnishes the cavity with a living membrane, or where a more common case, where little of the lung has been left, the walls fall together and form, upon, or near, the second remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, it comes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

GRINDLE'S ANCIENT AND CELEBRATED JAPANESE LIFE PILLS,

NATURE'S OWN REMEDY!

A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

FOR a long time we have been compelled to witness with painful emotion, the many adulterated and life destroying Drugs made into pills in liquid medicines, and patients using them without knowing their injurious effects upon their system. This *monstrous evil* may now be entirely stopped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have studied hard to find a cathartic which, while it purged, would *throw out disease,* and not *mere secretions alone,* would *invigorate and strengthen,* and not *deplete and weaken the system.*

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out *disease* and not mere *secretions,* thoroughly purifying the blood, and *immediately* strengthening the system—has been found. They will not only relieve but *positively cure* every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients that composed the pills at that ancient time are continued to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing. The number of these Pills being used by females alone for their various complaints, constitutes in itself an immense trade. They are no the *"female pills"* so much puffed into pub lic notice, which instead of curing, produce critical and dangerous complaints, but are for male or female, old or young, and can be administered by any one, at any time, without exposure or change of diet.

The Pills are sent by mail, from the Proprietor, on receipt of the price. The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all money sent us by mail.

DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives. Acts slowly and gently, but surely, leaving the bowels to carry off all the secreted matter, at the same time stimulating the Liver to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack, and it will clear the stomach. For an overloaded stomach, or when food lies or sours, take the Invigorator after eating, and it will improve discomfortable or expressive. For Heartburn, Palpitation, or Difficult Breathing, take a teaspoonful twice daily. For Loss of Appetite, Costiveness, the medicine is invaluable. It will restore the appetite and make the food digest well. For Nightmare, take a teaspoonful on retiring, and the cause of it is removed and will also be free. After eating a hearty dinner, take a teaspoonful of the Invigorator, and it will relieve all oppression or fullness. The Invigorator is a mild laxative, and is a quieter stimulant, acting directly on the digestive organs, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing new before the American public, prepared with such skill by a scientific man, particularly for disease of this direct, as Dr. Sanford's Invigorator, or Liver Remedy. It has a world wide reputation, needing no other notice in the world, simply resume it rests on its own merit. To convince the skeptical that it is all that Dr. Sanford's advertisement, we know of no remedy that will so surely cure, drop as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach, and Digestive organs. It came to us with so many testimonials in its favor that we concluded to try it in some of the worst cases of confirmed debility, caused by deranged Liver, and in every instance the effect was to relieve and give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been prejudiced against patent medicines, but we are convinced that this medicine, for the use, is not overrated by the list of recommendations it has. Our advice is, for all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it; our word for it, relief will be experienced.

Please give to the invalids who use Dr. Sanford's Invigorator, for it will relieve them of their pain as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away, as day does night. It will banish darkness and fill the heart with joy. There can be no doubt in those who try it, for the test
